

The **technology** at the
service of **innovation**.

With approximately 40 years of existence, AF Azevedos, began the activity with the execution of tools and molds. Following the needs of the growing market and technological development has a vanguard production capacity. Extended its activity in the steel plate processing area and production of electromechanical equipments, having today two plants, with a covered area of more than 12 000m².

A.F. Azevedos invests in the continuous improvement of its manufacturing processes, providing the company with capacity for the execution of projects with high quality standards quality and aspiring its recognition at national and international level.

Taking advantage of the existing technological valences, A.F. Azevedos created the brand BPLAN - www.bplan.pt - affirming the versatility of the metal, as an alternative in the scope of the Architecture Design and Decoration.

Together we are stronger.

AF Azevedos Group counts with approximately 140 employees.
